

Paula Millen, M.S., CCC-SLP
Speech-Language Pathologist

I am the Speech-Language Pathologist at Zephyrhills High School, where I am dedicated to helping students develop the communication skills they need to succeed academically, socially, and beyond the classroom. I believe that effective communication is a fundamental human right and a powerful tool for self-expression, relationship building, self-advocacy, and lifelong success.

Originally from beautiful Montego Bay, Jamaica, I grew up in a large, close-knit family that instilled the values of hard work, resilience, compassion, and service to others. Those experiences continue to guide both my personal and professional life.

I earned my bachelor's degree from Florida Atlantic University and a Master of Science degree in Speech-Language Pathology. I am licensed as a Speech-Language Pathologist in both Florida and California and hold the Certificate of Clinical Competence (CCC-SLP) from the American Speech-Language-Hearing Association (ASHA).

Throughout my career, I have been passionate about supporting students with diverse communication needs and helping them build the skills and confidence necessary for success in school, the workplace, and their communities.

My husband and I have been happily married for 29 years and are proud parents of two wonderful sons. Benjamin is a graduate of the University of South Florida, and Jacob is currently attending the University of Central Florida. Family remains at the center of everything I do.

I strive to create a supportive, engaging, and inclusive environment where every student feels valued, respected, and heard. I am honored to be part of the Zephyrhills High School community and grateful for the opportunity to help students grow as communicators and lifelong learners. I believe;

Every student deserves a voice, every voice deserves to be heard, and every conversation creates an opportunity for growth.
